## Let's be exciting together.

### ■ 120 days after 40 days.

To all junior high school students, who spent the last 40 days thinking, selecting and acting for yourselves, how are you all doing? There are many big events at our school in the 120 days (the second semester of the previous school year) until the next long vacation (winter vacation). There is a big turning point at our school.

Oct. 16 <sup>th</sup>	「Sports day ( <i>Danketsu-sai</i> )
Nov. 6 <sup>th</sup>	「F-0 publication meeting」
Dec. 17 <sup>th</sup> & 18 <sup>th</sup>	「Chorus meeting」

### ■ After all, I will also “participate”,

I suppose it is natural to think it will be getting busy, looking at the above schedule. However, some students are excited. The difference is just to do what you are told, to think about yourself, to try to do what you can do, is not it? Among the teachers in Higashi Junior High School, there are many teachers who changed their summer vacation mode to exciting mode. Teachers, who think about the above three milestones, gathered and started to speak this and that.

### ■ It is fun to prepare for it

In the discussion, it was a word of a teacher who loves traveling. Even traveling, it was a fun to think about it before traveling. Indeed, it is true to say so. Participating the discussion, I was also getting excited.

### ■ For the Sports Day (*Danketsu-sai*) on Oct. 16th

We have been thinking what kind of Sports Day (*Danketsu-sai*) we wanted to have at school-wide committee meeting in June. The coronavirus infection restrictions were lifted during the planning stage, the ideas expanded. We can choose a job or role that we can do for everyone.

Is not it possible for everyone to make this an opportunity that each student can enjoy and contribute to?

### ■ For the F-0 publication meeting on Nov. 6<sup>th</sup>.

In Minokamo City, there is a plan called F-0 Plan, that is a plan to grow young power from the age of 0. Based on it, we carry out school management and announce the situation every year in one of the junior school district (Higashi, Nishi, and Futaba).

Starting from Learning Festival in July, volunteer students are also participating in the research lessons. You are the students who start thinking your own style of learning. I want many people come and see your growth by all means.

### ■ For the Chorus meeting on Dec.17<sup>th</sup> & 18<sup>th</sup>.

I want to make this event not just simply competing for goodness, but be able to participate in both children who are good at singing and not at chorus. With the members of chorus committee, I have such wish. For the chorus meeting, I am looking forward to which music each class is going to select and how they are going to tackle to it. I think the weather of the day of the event will be cold, but I am sure it will be warmhearted event.

### ■ The subjects who create OO are children, right?

At the discussion gets lively, someone pointed out the most important thing that we must remember.

There should be something out there that needs your involvement. Why not join in and get excited about them together?
