How will be the growth of this year?

■ Be grateful to welcome the year 2025

Thank you very much to all the families and local residents for your cooperation in Higashi Junior High School's educational activities this year. In the four months following the end of the summer vacation, we had a string of major events, including the *Danketsu-sai* (Unity Festival), F-0 Presentation, and Chorus Festival. We believe that each of these events was an opportunity for students and staff to think about and create together, and also an opportunity for them to grow.

As the new year begins, we start to prepare for the new school year fully as well as the end of the school year. As a reference for this, we conduct a "School Evaluation Survey" at the end of each school year. At Higashi Junior High School, we have significantly narrowed down the number of questions since last year. At the same time, we are having both students and adults (parents, local residents and staff) reflect on their own attitudes and behavior.

■ Why do the adults also look back?

The reason for this is the following statement:

(Omitted) Providing an environment in which students can realize the significance of learning and enabling each student to develop their qualities and abilities is a role expected of all adults involved with students and schools in various positions, including teachers and other school personnel, as well as families and local people. (Omitted)

Summary from the preamble of the "General Provisions" of the Course of Study.

The Course of Study is a set of standards established by the government in accordance with the School Education Act and other laws to help each school develop its own curriculum, so that students can receive a consistent level of education regardless of where they receive their education in the country.

本年度の成長はいかに?

Principal Hideya Watanabe
校長 渡辺英哉

The sentence introduced above is a summary from the "Preamble" that was newly added to the latest curriculum guidelines.

"Children do not grow up only at home or only at school. Adults around them should join forces to raise them."

I think this is the message that is being conveyed. I think it is we, the adults, who need to reflect on whether we are contributing to the growth of our children.

■ The survey will be conducted in January of the new year.

The following four items have been announced since the beginning of the school year as a way to reflect on how close we are to achieving Higashi Junior High School's educational goals ("the skills we want to develop = qualities and abilities" and "acting for our own happiness and the happiness of others").

① In class, we explain thing to each other until we understand.

② I believe I can make my class and Higashi Junior High School better and more enjoyable.

③ I try to be careful so that myself and my friends can live safe and healthy lives.

④ I have good points.

Students will reflect on whether the above applies to them or not. Staff will reflect on whether they have taken steps to help students answer "Yes" or not. We would like families and community members to reflect on whether they have spoken to or interacted with our students so that they can also answer "Yes".

We plan to ask for your cooperation around January 20th. Thank you very much for your cooperation. We hope you have a happy new year.
