Connect つよがる

Principal Hideya Watanabe

校長 渡辺英哉

■ The word we have heard many times from our students

It is "Connect".

"I want to connect with my friends," "I want to connect beyond the boundaries of my grade level", "I want to connect with adults".

■ 1st graders who connected with next year's 1st graders

The 1st graders were divided into small groups and communicated face to face with each other about what the current 6th graders want to know about junior high school life (each class had its own elaborate presentation). It must have given them a great sense of relief and excitement.

This was evident in the way the 6th graders clapped to welcome the 1st graders when they entered to perform their choir to them, and it their words of thanks, "I'm looking forward to coming to Higashi Junior High School."

■ 2nd graders trying to create something through connections

Last week, on Friday the 21st, we held a meeting of the school management council. The seven 2nd graders who had just been elected the previous day also participated in the meeting. "What kind of school is a good school?" "What can you (yourself) do to create such a school?"

It seems I was not the only one who was excited by the straightforward question, as well as the way they tried so hard to communicate their ideas and make connections.

"The junior high schools today are amazing! "It's fun talking together", "I feel a sense of determination to build Higashi Junior High School ourselves". ※ Excerpts from comments from participants.

It was an opportunity that was received with great surprise and delight by the local people.

■ 3rd graders who taught us the benefits of connections.

If we all connect to try together, we can do amazing things (from daily life to events such as Sports Festival, *Danketsu-sai*, the F-0 public meeting, and the Chorus Festival) and have a lot of fun. It was the 3rd graders who have led the way in demonstrating this.

2nd graders who look up to them says, "Seniors are amazing when it comes to discussions. They all voice their opinions freely".

I have even heard this from 3rd graders themselves. It's impossible for no one speak up (to a child who is not so enthusiastic). Because if you speak up, they will respond".

It was the latter part that resonated with me. Because each child responds in their own way, you can speak up to them and share your opinions frankly.

I am reminded that this "Connection" means "taking action for my own happiness and others".

I can not help but feel a sense of strength and gratitude for the growth of the most senior students who are about to graduate. I hope that these "Connection" will become a tradition that will be passed down from seniors to juniors in the future.
